

## Coin Counter Machine

**C-3500***High-Speed and Portable*

Compact

Easy to Carry

2-Year Product  
Warranty

Easy To Use

**Product Features****01****High-Speed Sorting**

Count up to 1600 coins per minute and sort at a speed of 1400 coins per minute, ensuring efficient and rapid processing of large volumes of coins.

**02****Exceptional Sorting Precision**

Achieves sorting accuracy greater than 0.6mm, ensuring reliable sorting of mixed denominations with minimal errors.

**03****Durable and Robust Construction**

Features HRC55-grade hardness on sorting channels, ensuring durability and long-lasting performance in high-demand environments.

**User-Friendly Display**

Equipped with a 7-digit counting display and 4-digit preset display, offering clear, easy-to-read information on coin counts and preset values.

**Technical Specifications**

Display	7-digit counting display, 4-digit preset display
Hopper Capacity	≥1500 coins (10 yen coins)
Counting Speed	≥1600 coins/min (10 yen coins)
Sorting Speed	≥1400 coins/min (10 yen coins)
Coin Size	Diameter 14-34mm, Thickness 0.8-3.8mm
Sorting Channel Hardness	HRC55 or higher
Operating Temperature	0-40° C
Dimensions	296mm (W) x 373mm (D) x 295mm (H)
Weight	14 kg
Power Consumption	85W (operating)
Certification	PSE certified
