

Coin Sorter Machine

C600

Count and Sort Coins with the Highest Level of Speed and Accuracy

Compact

Sleek Design

2-Year Product
Warranty

Easy To Use

Product Features

01

Exceptional Counting Speed

The C600 boasts industry-leading performance, counting up to 950 coins per minute with unmatched efficiency.

02

Precision Sorting of Mixed Coins

Operation is simple — just insert the mixed coins into the machine, and it will automatically sort and count them with precision.

03

Space-Saving Design

Designed to maximize workspace, it fits perfectly on any desk without compromising performance.

The 7-inch TFT touch display provides a larger viewing area, offering enhanced information visibility and significantly improving operational efficiency and ease of use.

Technical Specifications
